ANSH SRIVASTAVA

+91-9599091751 | srivastavaansh171@gmail.com | LinkedIn: ansh-srivastava-7a2436261 | GitHub: Ansh141102

TECHNICAL SKILLS

Technical Skills: Python, SQL, Power BI, Tableau, AWS, ETL/ELT, Apache Spark, Apache Kafka

Tools & Frameworks:

- **Data Analysis & Visualization:** NumPy, Pandas, Matplotlib, Seaborn
- **Machine Learning:** Scikit-learn, XGBoost (Regression, Classification, Clustering, PCA)
- **Deep Learning:** TensorFlow, PyTorch
- **Web Frameworks:** Flask, Streamlit
- **Tools:** GitHub, Docker, Jupyter Notebook, VS Code

EXPERIENCE

Machine Learning Engineer (Freelance) — Alliance Precision and Solution | Sonar-Based Underwater Object Detection System

- Developed a machine learning model to classify underwater objects (mines, rocks, obstacles) using sonar and naval sensor data by performing preprocessing, feature engineering, normalization and dataset balancing, achieving **85% accuracy**.
- Trained and optimized multiple classifiers to reduce **false positives by 77%** and deployed an end-to-end **real-time inference prototype** for naval safety applications.

Data Analyst Intern — SPN JIT ENGINEERING SOLUTIONS PVT LTD

- Performed **data cleaning, preprocessing, exploratory analysis and SQL-based data extraction** using Python, SQL and Excel to prepare and analyze business data for reporting and operational requirements.
- Built **interactive Power BI and Tableau dashboards and sales reports**, using Python visualization libraries to analyze sales trends, product performance and market requirements, supporting data-driven business analysis and decision-making.

PROJECTS

EV Vehicle Dashboard | February 2026

- Built an interactive **Tableau** dashboard using **130K+ electric vehicle registration records** from Washington State (USA) to analyze EV adoption trends by location, manufacturer, vehicle type and model.
- Designed year-wise trend analysis with **maps, charts, and interactive filters**, transforming raw transportation data into actionable insights for market analysis and data-driven decision-making.

Telecom Customer Churn Analysis | June 2026

- Performed end-to-end **EDA** on the Telco Customer Churn dataset (**7,043 customers, 21 features**) using **Python, Pandas, NumPy, Matplotlib, Seaborn and Jupyter Notebook**, identifying a **26.5% churn rate** and key customer behavior patterns.
- Conducted **data cleaning, statistical analysis and visualizations** to identify major churn drivers, delivering actionable insights for customer retention and business decision-making.

ML Based Stock Price Predictor | December 2025

- Developed an ML-powered stock prediction web application using **Python, Flask, Scikit-learn, XGBoost, HTML, CSS and JavaScript** to forecast **7-day stock prices** for NSE/BSE companies using historical data, technical indicators and news sentiment.
- Built an end-to-end stock market analytics pipeline using **YFinance, NewsAPI, VADER and technical indicators (SMA, RSI, MACD)**, with an interactive dashboard featuring live market data, AI insights and confidence-based forecasts.

Heart Failure Prediction System | November 2025

- Developed an **ML-based** heart failure prediction system using **Python, Flask, Scikit-learn, XGBoost, SVM, HTML, CSS and JavaScript**, applying feature engineering and an end-to-end ML pipeline to achieve **91% accuracy**.
- Built a **Flask** web application with **real-time and batch prediction** capabilities, enabling fast, data-driven heart disease risk assessment through an intuitive user interface.

.

CERTIFICATIONS

- **Data Science Certifications:** IBM – Python 101 for Data Science | Infosys Springboard – Introduction to Data Science
- **Coursera Certifications:** IBM – Machine Learning | Data Engineering Professional Certificate
- **Forage Virtual Experience Program:** Tata (Data Visualisation) | Goldman Sachs (Engineering Job Simulation)
- **Udemy Professional Certifications:** Data Analysis (SQL, Tableau, Power BI & Excel) | AWS Certified Cloud Practitioner (CLF-C02)

EDUCATION

ABES ENGINEERING COLLEGE (AKTU)
Bachelor of Technology in Computer Science & Engineering (Data Science) | Oct 2021 - Sep 2025
